ANTI-INFECTIVE DRUGS

PRODUCT	DESCRIPTION	STANDARD	PACKAGE SIZE	MAIN APPLICATION
VANCOMYCIN HYDROCHLORIDE	White or almost white powder, hygroscopic power, freely soluble in water, slightly soluble in alcohol. Store in an airtight container, protected from light, at 2°C~8°C	USP; EP; JP; IP; CEP	5KG/TIN 4KG/TIN	An important Active Pharmaceutical Ingredient which is used to produce Antibiotic drugs.
TEICoplanin	White or light yellowish-white powder, hygroscopic power, freely soluble in water. Store in an airtight container, protected from light, at 2°C ~8°C.	JP; EP; CP; CEP	3KG/TIN 2 KG/TIN	An important Active Pharmaceutical Ingredient which is used to produce Antibiotic drugs.
TIGECYCLINE	Orange-yellow to orange-red crystals or crystalline powder.	Enterprise Standard	1KG/TIN	An important Active Pharmaceutical Ingredient which is used to produce Antibiotic drugs.
DAPTOMYCIN	Light yellow to yellow power. Store in an airtight container, protected from light, at 2°C ~8°C.	Enterprise Standard	1KG/TIN	An important Active Pharmaceutical Ingredient which is used to produce Antibiotic drugs.
LEVOfloxacin	Light yellowish-white to yellowish-white crystals or crystalline powder.	USP	60KG/DRUM	An important Active Pharmaceutical Ingredient which is used to produce Antibiotic drugs.

GLUCOSIDE INHIBITORS

PRODUCT	DESCRIPTION	STANDARD	PACKAGE SIZE	MAIN APPLICATION
MIGLITOL	White or almost white crystalline powder.	Enterprise Standard	5KG/TIN	An important Active Pharmaceutical Ingredient which is used to produce Antibiotic drugs.
VOGLIBOSE AND INTERMEDIATES	White crystals or crystalline powder.	Enterprise Standard	5KG/TIN	An important Active Pharmaceutical Ingredient which is used to produce Antibiotic drugs.

IMMUNOSUPPRESSANT

PRODUCT	DESCRIPTION	STANDARD	PACKAGE SIZE	MAIN APPLICATION
SIROLIMUS	White or almost white crystalline powder.	Enterprise Standard	1KG/TIN	An important Active Pharmaceutical Ingredient which is used to produce immunosuppressant.
TACROLIMUS (FK506)	White or almost white crystalline powder.	Enterprise Standard	1KG/TIN	An important Active Pharmaceutical Ingredient which is used to produce immunosuppressant.

NOTES

* for the active ingredients

BHT: Butylated Hydroxy Toluene

Standards:

FCC: Food Chemicals Codex

USP: United States Pharmacopoeia IP Identity Preservation

JP: Japan Pharmacopoeia

Non-GMO: Non-Genetically Modified Organism

Ph. Eur: Pharmacopoeia of Europe

Low PH: Low content of Polycyclic Aromatic Hydrocarbons JECFA Joint

FAO/WHO: Experts Committee on Food Additives
